PERSONAL SUMMARY

Dynamic **Maintenance Professional** with expertise in **Fusion 360, SolidWorks, AutoCAD, and Mechanical Troubleshooting**. Skilled in **Preventive & Corrective Maintenance, Tool Room Operations**, and adherence to **5S Methodology**. Proven ability to **reduce tool downtime**, enhance **equipment reliability**, and support **production efficiency**. Strong **problem-solving, teamwork, communication, and attention to detail** skills, fostering a culture of **safety and precision** in manufacturing environments.

SKILLS

Design & Modeling: Fusion 360, SolidWorks, AutoCAD, Mechanical Design, Technical Drawing

Simulation & Analysis: Ansys

Mechanical Operations: Equipment Maintenance, Mechanical Troubleshooting, Preventive & Corrective Maintenance

Process & Quality: 5S Practices, Process Improvement, Quality Assurance

EXPERIENCE

TOOL ROOM MAINTENANCE, 08/2021 - 08/2022

ALF Engineering Pvt Ltd, Satyavedu Mandal, Andhra Pradesh

- Performed preventive and corrective maintenance of **press tool components** to ensure tool accuracy.
- **Inspected, serviced, and repaired tools** to reduce breakdowns and downtime.
- Maintained accurate records of maintenance activities and corrective actions.
- Supported production teams by ensuring tool availability and reliability.
- Followed **5S and safety practices** to improve tool room efficiency.

EDUCATION

Saveetha School of Engineering | Chennai | Oct 2022 – Nov 2025

BE: Mechanical engineering

Nettur Technical Training Foundation | Vellore | Aug 2018 – May 2021

Diploma: Tool & Die Making | CGPA: 7.62

Nammakal Teachers Vidhiyassram Matriculation | Vellore | 2018

SSLC | CGPA: 7.96

WEBSITES, PROFILES

CERTIFICATIONS

- **NSDC Tool and Die Maker** – Level 5
 - (Skilled in designing, fabricating, and maintaining tooling for precision manufacturing)
- **NSDC CNC Setter cum Operator (VMC)** – Level 5
 - (Proficient in setting up, operating, and troubleshooting CNC machines for production efficiency)
- **NSDC Fitter, Mechanical Assembly** – Level 3
 - (Experienced in assembling, fitting, and maintaining mechanical components with precision and accuracy)

PROJECTS

Portable Abrasive Belt Trimming Machine

- **Designed and developed** a **portable abrasive belt machine** to improve **surface finish**.
- **Reduced operator effort** and **increased trimming efficiency** compared to manual methods.

Variable Head Based Solar Grass Cutter for Different Terrain

- **Designed and developed** a **solar-powered grass cutter** with a **variable head mechanism** for effective use across **uneven terrains**.
- **Reduced manual effort** and **improved cutting efficiency** compared to conventional grass-cutting methods.

Evaluation of Material Removal Rate in Drilling Hybrid Epoxy Composite with and without Fly Ash Natural Filler

- **Conducted experimental analysis** to evaluate **Material Removal Rate (MRR)** in drilling of **hybrid epoxy composites**.
- Compared results **with and without fly ash natural filler**, highlighting its impact on **machining performance** and **material behavior**.
